Reading
Space
Cultures
Craft Beer

Profile:

I am a professional full stack developer seeking a challenging AGILE work environment. The knowledge I possess now compliments my ability to learn skills I'm not yet familiar with rapidly. I enjoy the blend of problem-solving and creativity that goes along with being a web developer, because it makes "work" not work, but a fun little adventure every day.

Web Dev Experience:

2016 - 2017

General Assembly

Developed 4 full-stack apps using technologies such as Node and Rails, both individually and as a team.

Web Dev Projects:

artofmayhem.com

Responsible for design and site structure as well as some PHP work for this short film's site.

/snews Slack App

snews-app.herokuapp.com

Built entire app using Node.js & Express.js. Hit external NewsAPI to display news stories within Slack from message bar input. Also designed landing page for app.

Other Experience:

Mar 2014 - Aug 2014

Inventory Supervisor

Garden State Growers, Inc.

Quality Assurance, Printing UPC Labels, Keeping Delivery Schedule, Organizing Label Department

Education:

2016 - 2017

General Assembly

Web Development Immersive Bootcamp

2009 - 2012

James Madison University

Cinematography and Film/Video Production
